7	URUTHHIRAPURAM	2	2	
	TOTAL	67	30	3
			100	

I RECEIVED MONEY IN BENEFICIARY

thank you!

THANKS!

Success story

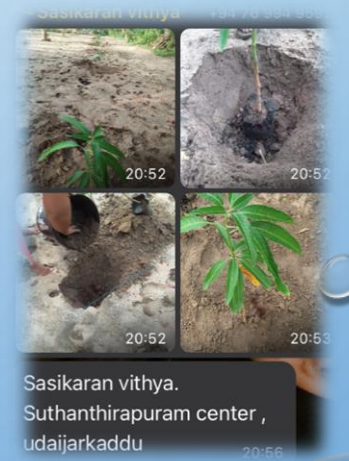

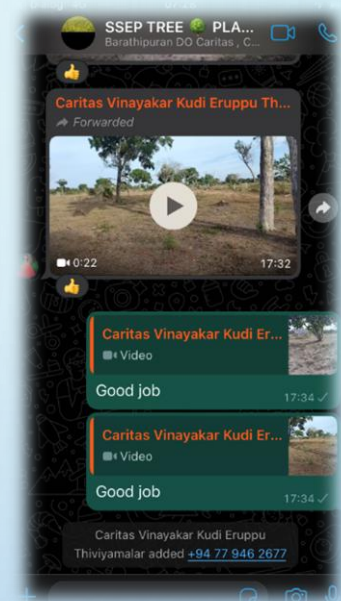

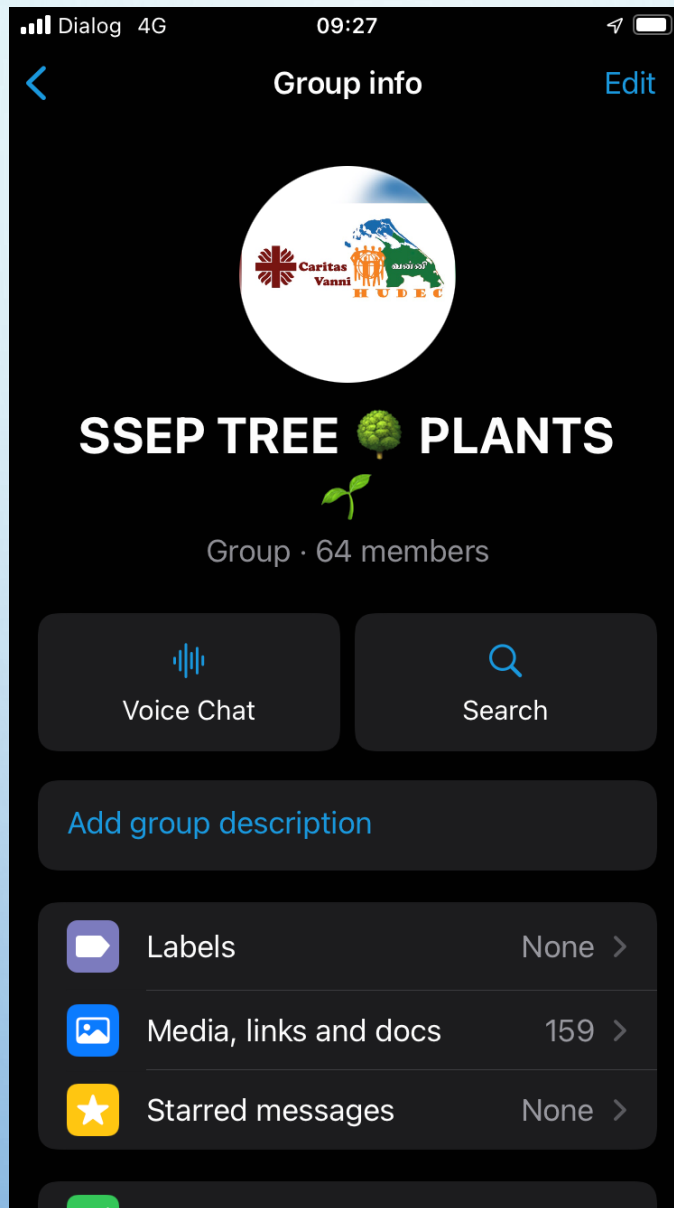

- ❑ One of the beneficiary in Vallappallam village .we identified he is the best entrepreneur compare to other beneficiaries. He has one vermi compost unit in his house. He continuously produce vermi compost in his own way and sell out his product based one the community level and market level. We provided input materials to his to encourage his production activities.

- ❑ Now days we handover the long term tree plants and also I create one WhatsApp group that people was responding to me always.
- ❑ Long term tree plants' this program I need 100 beneficiaries but sometimes they are not confirm and also now I have 82 beneficiaries payment done .

CHALLENGES

Faced difficulties to selecting beneficiaries for the tree planting campaign.
We have to face some difficulties to getting the government resource person for the essential training program.

A close-up photograph of a person's hand pouring water from their fingers onto a small, vibrant green seedling growing out of dark, rich soil. The background is a soft-focus green field under bright sunlight, with a large white oval containing text overlaid on the right side.

Thank you for giving
me the opportunity to
show you how I can fit
into your team.

Thank you

G.Mathursan
